Trusted. Tested. Tough.®

## **PIVOT PAK IS**

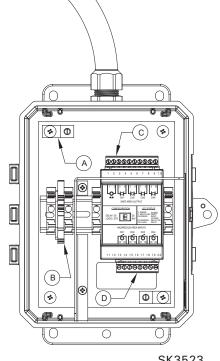

## » FEATURES & BENEFITS

The Pivot Pak IS is an independent accessory designed to to be added to any of our existing Pivot panels to convert them to intrinsically safe panels. See FM3459 for the panel selection guide.

- Meets Class 1 Division 1 Intrinsically Safe requirements
- 15" long prewired conduit cord with stripped wire ends for fast and easy connection to a control panel
- Steps down 120 V power from the panel to the float switches
- Connect up to three or four floats for simplex or duplex operation
- Stock less panels with this one accessory
- MUST be installed in a general-purpose area
- Refer to FM0526 for low current float switch selection or any milliamp floats used for hazardous environments

SK3523

## **Panel Components**

- (A) Ground Lug
- (B) Fuse
- (C) Float Safe Area **Outputs from Panel**
- (D) Hazardous Area Inputs from Floats
- (E) To Panel
